Protect Yourself

As fraudsters become more tech-savvy, consumers must be as well. Share these tips with your family and friends, especially younger adults and seniors.

✓ Do

- ✓ Have a “code” word for family members for phone calls or texts.
- ✓ Verify requests from calls, emails, texts, social media or unexpected letters with a trusted source.
- ✓ Ensure websites are legit (look for the padlock icon and correct URL spelling).
- ✓ Be cautious using public Wi-Fi.
- ✓ Collect your mail regularly.
- ✓ Shred papers you don't need.

! Don't

- ! Click on links in text messages.
- ! Respond to “wrong number” texts.
- ! Use QR codes you don't trust.
- ! Contact companies if they sent a package you didn't expect.
- ! Overshare on social media.
- ! Respond to “urgent” messages from sources you can't verify.

I hope these tips help protect you and your family. If you need a referral for any other type of professional, such as legal or IT, I can connect you to a great one in my network. And oh, by the way...I'm never too busy for any of your referrals!
